Joaquin Valley Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; reopening of comment period.

SUMMARY: The Environmental Protection Agency (EPA) issued a proposed rule in the Federal Register on December 2, 2015, proposing to approve a revision to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) portion of the California State Implementation Plan (SIP). The December 2, 2015 proposal provided for a 30-day public comment period ending January 4, 2016. One document in the docket for this proposal was not listed at www.regulations.gov until after the comment period had closed. EPA is reopening the comment period for 15 days to ensure the public has an opportunity to review and comment on all material in the docket.

DATE: Any comments must arrive by [**Insert date 15 days after the date of publication in the Federal Register**].

SUPPLEMENTARY INFORMATION: This document reopens the public comment period established in the proposed rule published in the Federal Register on December 2, 2015 (80 FR 75442) (FRL-9939-64-Region 9). In that document, EPA solicited comments on a proposed rule to approve revisions to the SJVUAPCD's Rule 4702 (Internal Combustion Engines) and referenced a technical support document (TSD) containing further information about the rule. Due to an administrative error, the TSD was not available on www.regulations.gov until after the close of the comment period on January 4, 2016. Although EPA did not receive any public comments on this proposal or any requests for the TSD, EPA is reopening the comment period for another 15 days to ensure that the public has an opportunity to review and comment on all material in the docket. Accordingly, any comments on this proposed rule must be received on or before [**Insert date 15 days after the date of publication in the Federal Register**].
